16	3.10 DIV. 31 - EARTHWORK	<p><b>Drilled Piers:</b> Include in Base Bid costs for indicated number of drilled piers and, for each pier, the design length from top of pier to top of bearing strata and the diameter of shaft and bell as indicated on Drawings and as specified in Div. 31 Section "DRILLED PIERS." Payment for penetration into bearing strata is to be included in Contract Sum. Adjustments to Contract shall be based on total linear feet of each pier size greater than or less than the sum of base bid lengths of each size. Unit prices shall include labor, materials, tools, equipment, and incidentals required for excavation, trimming, shoring, casings, dewatering, reinforcement, concrete fill, testing and inspecting, and other items for complete drilled-pier installation.</p>		<p>Per linear foot of drilled pier diameter. Provide Unit Prices for greater and lesser pier depth. Additive and deductive Unit Prices shall be equal, except where net change results in a reduction in project scope, exclusive of casing cost, the Unit Price credit for lesser depths may be reduced to no less than 2/3 of the net additive change calculated based on pier Unit Prices. Include costs for different pier diameters as required.</p>
